What is Marp

Code everything

Markdown to slideshow

Make slides has never been so easy

HTML, PDF, PPTX

Export in all formats

Open-source

Great tools for great people

Marp

Why this theme

corporate-marp-theme?

Light and concise

Slides as a guide, without much (written) content.

Simple and clear

corporate customizable.

Hosted on GitHub [here](#).

Available features

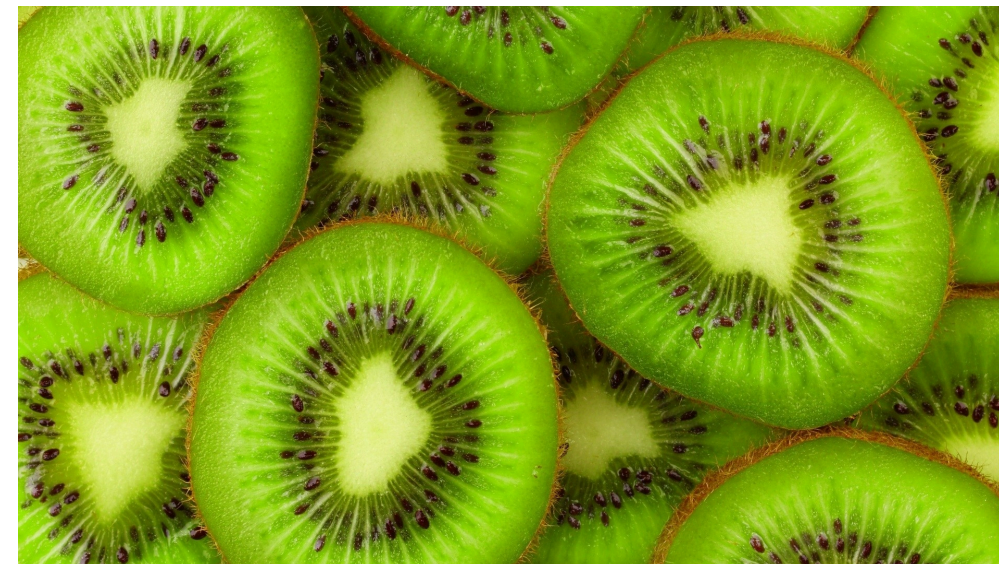

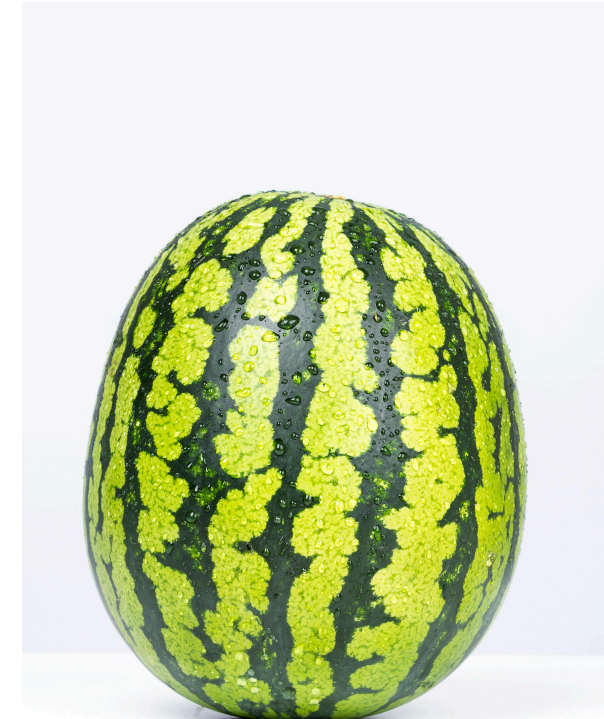

For most use cases

Columnning

To stay organized.

Special slides

First, Table Of Content and Last slide styles.

Available features

Columnning

For every need

Nested unordered lists allow to split the layout in columns.

e.g. *This first list element is on the left*

This slide code:

```
# Available features
## Columnning

- ### For every need
  Nested unordered lists allow to split the layout in columns.
  <br>

  e.g. _This first list element is on the left_

- ``md
  Code block you are currently looking at.
  ``

  _While this next list element is on the right._
```

While this next list element is on the right.

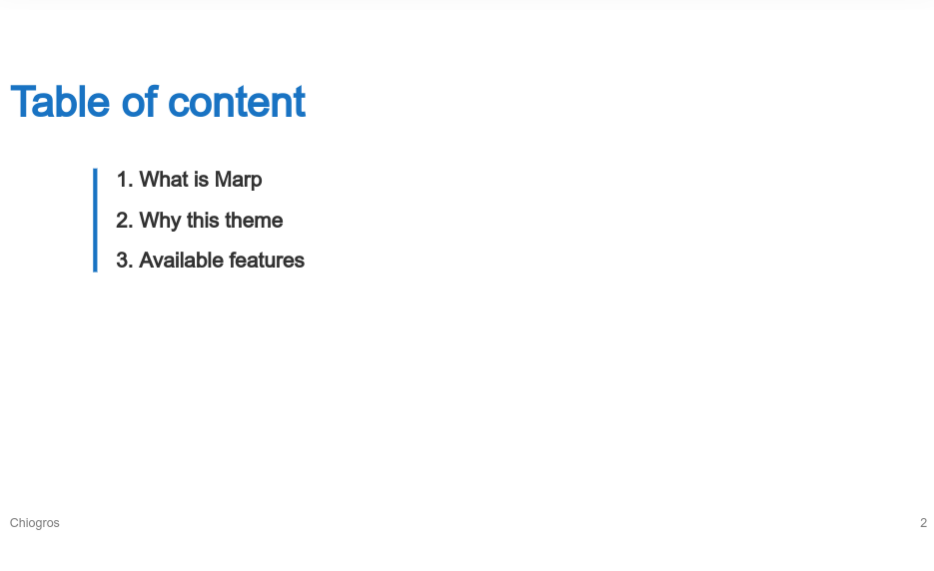

Available features

A layout for every situation

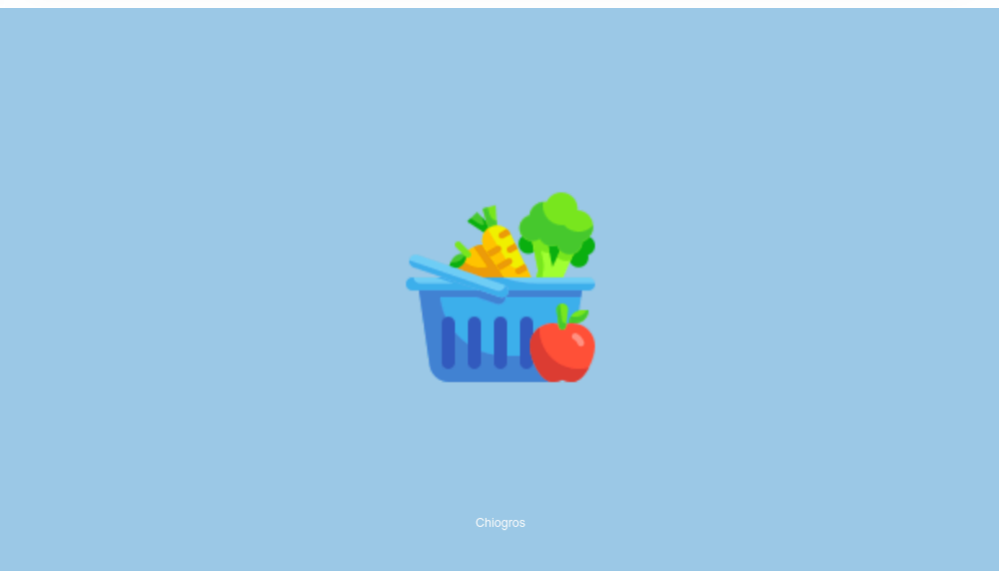

```
<!-- _class: first -->
```

```
<!-- _class: toc -->
```

```
<!-- _class: last -->
```

See the [documentation](#) for more details.
